What if you just couldn't escape your past? And what if the choices you'd once made kept threatening to force themselves into your present?

Carsen can feel the past closing in on her, and she hates that she's not in control. She begins to doubt herself and wonders if the decision she made as a young girl could now destroy the one person she thought it would protect. Was her decision in fact not the selfless act she'd always thought it was but instead the most selfish of the options?

Buckle-up for a ride, as Carsen's past is on a collision course with the new life she's constructed in Kimberley Dian's debut novel COLLIDE, where events put in motion two decades ago stalk the present for answers and resolution.
